ELITE PIG SUPER STARTER 2000

Elite Pig Super Starter 2000 has been formulated by the highly regarded nutritional team at ACE Livestock Consulting. This diet is scientifically formulated to promote adequate development and maintenance of a healthy digestive tract in piglets. By ensuring the piglet is off to a good start, their full genetic potential can be expressed, and optimal production achieved.

The diet has been designed for the pig to have a total intake of 2.0kg/pig post weaning. The diet is predominately targeted to pigs weaned after 23+ days of age. After eating the recommended amount, the pigs will advance to the next dietary level - **Elite Pig Starter 510**.

Elite Pig Super Starter 2000 contains a quality vitamin and trace mineral premix, cooked cereals, milk powder, digestible protein raw materials and gut health promoting products. The incorporation of niche and quality raw materials improves the piglet's feed intake, support gut development, optimize nutrient utilization and promote tissue growth and productivity.

The product is presented as a crumble and is available in 25 kg bags and 1 tonne bulk bags.

Contact the nutritional team for customised support for your individual feeding program.

SPECIFICATIONS
